

Chaperones and students are divided into two teams. Team Marcus and Andria and Team Adam and Reu . They will be alternating ministering and working at the work site. There will be some days where they will be together.

This year the work project will be pouring a cement floor, working on the girls dorms, and various painting projects. Please be praying in this area, as cement projects require very hard work. Pray that we will be injury free.

We will be ministering to schools where we will be singing songs, performing skits, and interacting one on one with Jamaican students. We will also be able to visit various orphanages and nursing homes. This can be an emotional time for the students as well as the chaperones . They will also be able to interact one on one with the children and elderly and be able to share the gospel and the love of God with them. Please make a special effort to pray for those involved that all will be blessed, as this leaves a tremendous impression on the lives of our students.
